Top Tips for a Successful IFT FIRST

- 1 Make a list - know what sessions you want to attend and what companies you want to visit. Download the IFT FIRST App to add sessions and vendors to your planner.
- 2 Make connections with your peers. Walk the expo floor with them, attend scientific sessions, or watch student competitions.
- 3 Have your contact information ready. You can share information through business cards or creating a QR code to your LinkedIn page or personal website.
- 4 It's ok to take a break! Take time to recharge and put your best self forward (the IFTSA Student Lounge is a great place for this!)
- 5 Expo exhibitors are here to do business and their busiest days are Monday and Tuesday. Wednesday is the best day to engage in conversations and ask your questions.
